- JavaScript / TypeScript
- React / Next JS
- Frameworks and Libraries
- Version Control and Git
- Responsive Design
- Testing and Debugging
- Working with APIs

SOFT SKILL

- Observation
- Decision making
- Communication
- Multi-tasking
- Team work

ABOUT ME

My name is Cengiz Aydemir. As an experienced Frontend Developer, I offer innovative and user-focused web solutions. I am passionate about creating user interfaces and highly skilled in HTML5, CSS3, JavaScript, React, TypeScript, and modern tools to create rich, interactive user experiences. I ensure projects work perfectly for every user by optimizing performance, accessibility, and SEO. I value collaboration within the team and maintain a continuous learning approach in my work.

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER

DIDIYOS - January 2024 Ongoing

- In effective collaboration with the team, I developed projects using modern front-end frameworks such as React and Next.js and actively contributed to the projects.
- Utilized tools like ClickUp, Figma, and Slack for project management and team collaboration.
- Efficiently managed code and collaborated using Git and GitHub.
- Focused on UI/UX design, contributing to the development of interactive and visually appealing user interfaces.
- Integrated and worked with various APIs, enhancing application functionality.

FRONTEND DEVELOPER

MIMCODE - January 2022 - January 2024

- Contributed to projects both independently and collaboratively within a team environment and worked on an e-commerce project, implementing best practices in frontend development.
- Expert in JavaScript, TypeScript, React, HTML and CSS, with the ability to use and test libraries such as Bootstrap, Tailwind CSS and SCSS, debug, optimize performance and user experience.
- With a strong focus on UI/UX principles, we design and develop interactive, responsive and visually engaging user interfaces that provide seamless usability across a variety of devices.
- Managed version control and collaborated effectively using Git and GitHub. Utilized tools like ClickUp, Figma, and Slack for project management and team collaboration.
- Gained hands-on experience with Next.js, Firebase, and other modern web development technologies. Integrated and worked with various APIs, enhancing application functionality.

CERTIFICATES

2024 - Software Development Training (Udemig)
